ABOUT ME

A motivated and detail-oriented Flutter developer with strong knowledge of mobile app development and programming tools. Seeking an opportunity in a growth-driven organization where I can apply my technical and analytical skills to build innovative applications, contribute to organizational success, and continuously enhance my knowledge. Passionate about learning new technologies, improving performance, and delivering user-friendly solutions.

EDUCATION

BCA
Shivaji University , Kolhapur
Percentage: 71.98 (2022-25)

H.S.C
Maharashtra State Board
percentage: 50.17 (2021-22)

S.S.C
Maharashtra State Board
percentage: 80.00 (2019-20)

TECHNICAL SKILLS

- Flutter
- Dart
- Firebase
- Getx
- Android Studio

INTERNSHIP

Flutter Developer
Company Name:- Orange Itech ,pune
May 2025 - August 2025

HOBBIES

- Learning new technologies
- Communication
- Problem Solving

INTERNSHIP EXPERIENCE

Cloth App

Developed a feature-rich clothing application using Flutter, GetX, and Firebase, allowing users to browse, purchase, and manage products seamlessly. Integrated authentication, product catalog, cart management, and payment gateway, with focus on clean UI/UX, state management, and real-time data handling to ensure a secure and responsive shopping experience.

EXPENSE TRACKER APP

Developed an Expense Tracker application using Flutter and Firebase, enabling users to record daily expenses, categorize transactions, and view spending insights through interactive charts. Implemented authentication and cloud sync for secure data management.

NOTES APP

"I built a feature-rich Notes application using Flutter and SQLite, designed to help users create, edit, and organize their notes in an efficient way. The app provides a clean and user-friendly interface where users can easily manage their notes. To improve usability, I implemented features such as search functionality for quickly finding notes, pinning important notes for quick access, and local storage using SQLite to ensure data is saved securely on the device. The application focuses on performance, simplicity, and smooth user experience, making note-taking fast, reliable, and convenient. This project gave me practical experience in Flutter development, state management, and database handling while enhancing my skills in building real-world mobile applications."

DECLARATION

I hereby declared that above mentioned Information is correct and best to my knowledge
